It is now generally known and understood that Drunkenness is a disease and not a weakness. Sufferers may now cure themselves at home without publicity or loss of time from business by this wonderful "home gold cure" which has been perfected after many years of close study and treatment of inebriates. The faithful use according to directions of this wonderful discovery is positively guaranteed to cure the most obstinate case, no matter how hard a drinker. Our records show the marvelous transformation of thousands of Drunkards into sober, industrious and upright men.

Wives cure your husbands!! Children cure your fathers!! This remedy is no sense a nostrum but is a specific for this disease only, and is so skillfully devised and prepared that it is thoroughly soluble and pleasant to the taste, so that it can be given in a cup of tea or coffee without the knowledge of the person taking it. Thousands of Drunkards have cured themselves with this priceless remedy, and as many more have been cured and made temperate men by having the "cure" administered by loving friends and relatives without their knowledge in coffee or tea, and believe today that they discontinued drinking of their own free will. Do not wait. Do not be deluded by apparent and misleading "improvement". Drive out the disease at once and for all time. The "home gold cure" is sold at the extremely low price of One Dollar, thus placing within reach of everybody a treatment more effectual than others costing \$25 to \$50. ### Base Ball Sunday.

There were stirring times at the ball ground Sunday. As announced beforehand, the regular game was preceded by a game of four innings between the American team and the scrub nine. As the time for calling the first game approached, the scrub nine was seen coming down the street dressed in uniforms that would rival the rainbow in splendor. They were led by a bugler and each player carried a broom on his shoulder. The game that followed produced a world of merriment and resulted in a score of 6 to 6. One member of the scrub nine said that their opponents gave them half the game and they stole the other half.

The game between the regular teams was closely contested, the score being 23 to 23 at the close of the ninth inning. It was then agreed to play two more innings. The final score was 26 to 25 in favor of the Mexican nine. There was some complaint because of alleged careless playing on part of certain members of the American team and at one time several members were reported to have quit. Everything is now lovely, however, and the usual game will be played tomorrow.

"I contracted a severe case of rheumatism early last winter by getting my feet wet. I tried several things for it without benefit. One day while looking over the Gazette, I noticed that Pain Balm was positively guaranteed to cure rheumatism, so bought a bottle of it and before using two thirds of it my rheumatism had taken its flight and I have not had a rheumatic pain since." For sale by A. E. Howell, Socorro; W. M. Borrowdale, Magdalena.

## Discovery of River Losses in New Mexico.

Recent hydrographic work of the United States Geological Survey in New Mexico, under the charge of Mr. P. E. Harroun, has brought to light facts of importance to that Territory, among them an estimate of the serious loss of water in the southern course of the Rio Grande. The Rio Grande is one of the most important in New Mexico, and is relied upon to furnish water for extensive irrigation, made necessary by the aridity of the climate. The investigations of the Geological Survey have shown that a much larger quantity of water in this stream than was supposed is annually lost by seepage in the wide, sandy bed, in which the river flows through the southern part of the territory. So great was this loss found to be that 150,000 acres more of land could be irrigated, it is estimated, by diverting water from the river in central New Mexico, above the point of loss, than will be possible further south.

### Formally Initiated.

An official of the Gila river forest reserve has been fully initiated and is no longer a tenderfoot. A few days ago, it is said that the official had occasion to go to the Adobe ranch of the V Cross T and several of the boys decided to introduce that gentleman to the mystic art of true western gallop by shooting at his boot heels to induce him to dance to shoot the pipe from his mouth without making him wink and put a rope around his neck and strung him up. After all the plasantries had been carried out in true western good humor the candidate was pronounced a full fledged knight of mountain and plain.—Sierra County Advocate.
